

# Swindon Services M4 J16-17

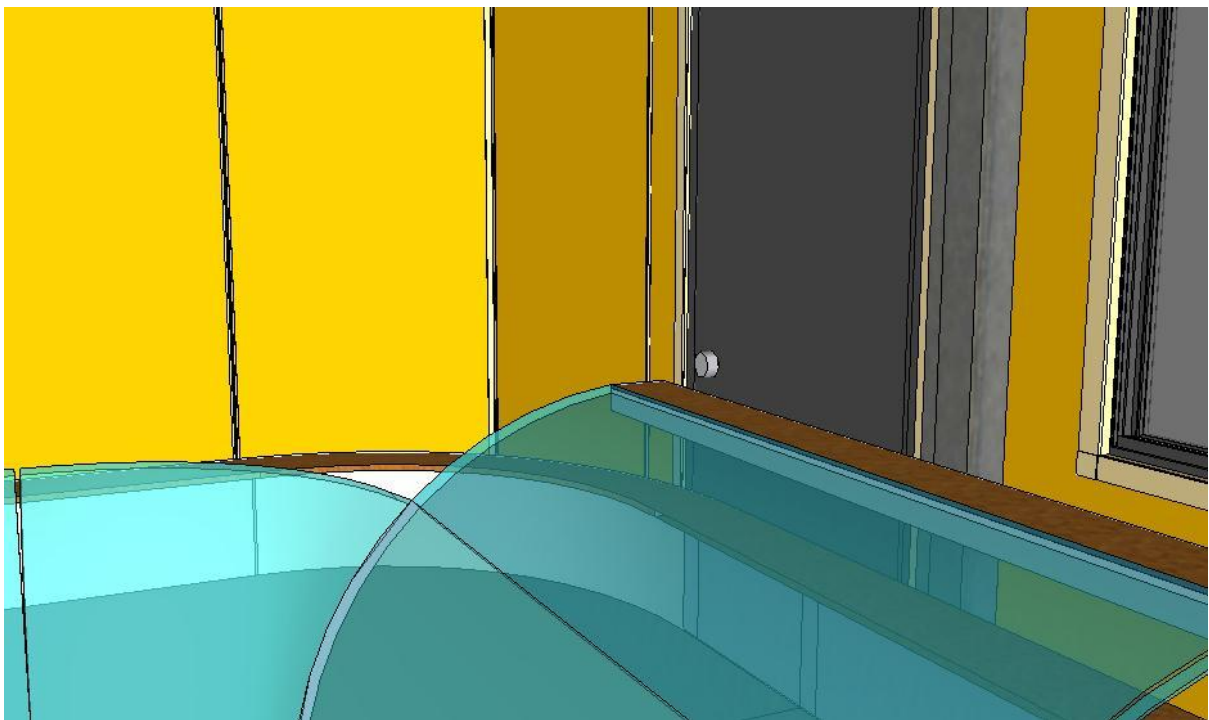

A strange services, this onced housed a massive services, with a total of 5 places to eat and 6 shops. Now, however due to a fire it is currently using portacabins, with absolutely no proper shop spread across the other side of the car park. When the replacement is completed these will be turned into a separate, unused but decent building with a shop unit, some toilet units, a restaurant and burger bar/ coffee bar unit and a dog station for fitting within 5 weeks.

*An overview of what's there.*

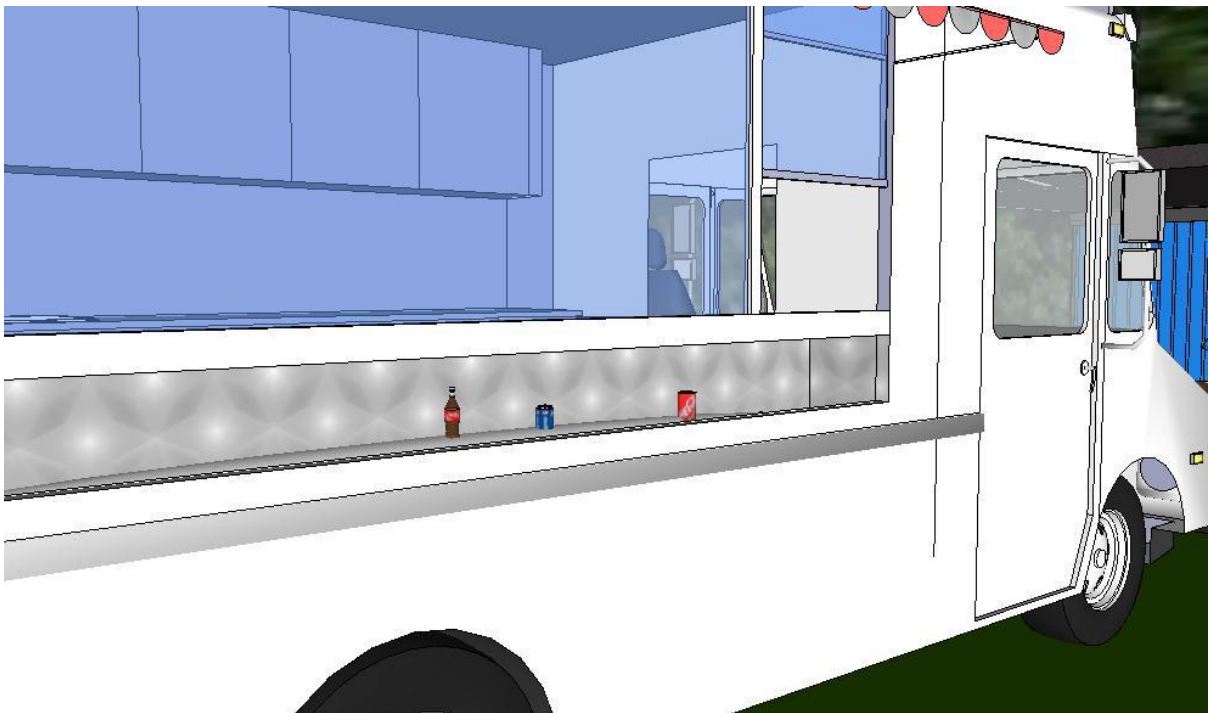

*The restaurant entrance is through this narrow door in a portacabin.*

*The restaurant servery.*

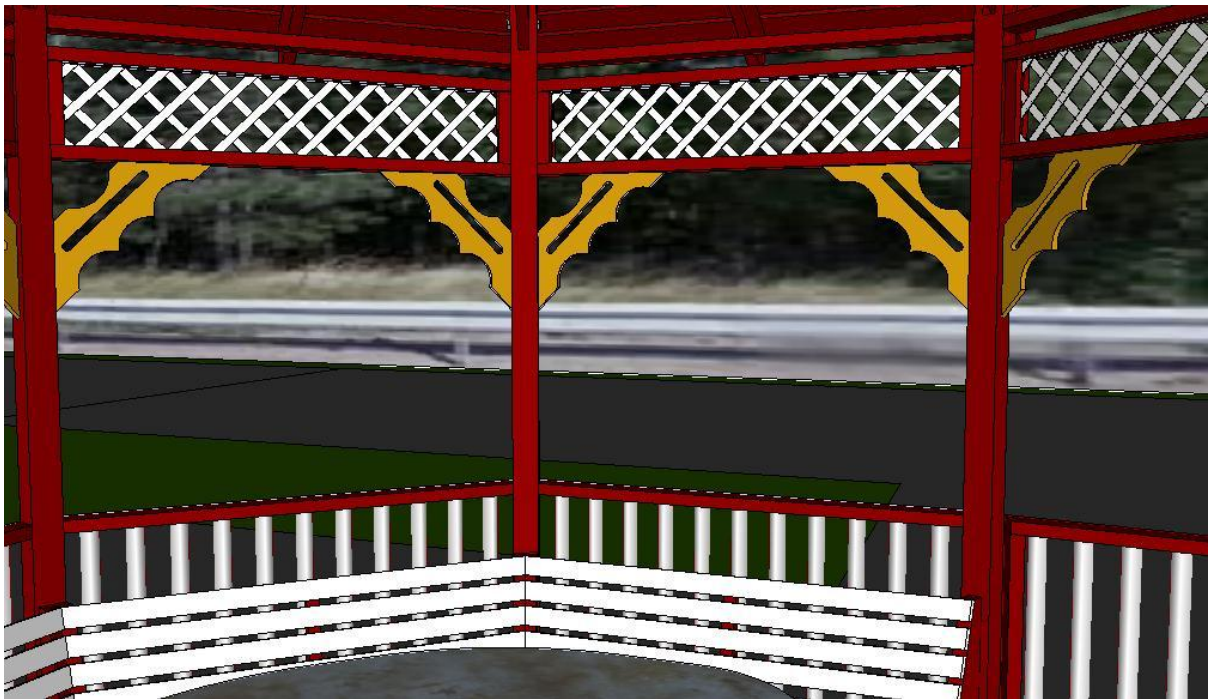

*The replacement building, currently far from finishing.*

*The takeaway van showing the huge selection of drinks.*

*Inside the temporary toilets. To be honest, it's not all that bad.*

*Inside the bandstand like takeaway seating, in the middle of the car park.*
